ALL MUSICIANS WANTED FOR MASSIVE ONLINE PUNK BAND!!! I've just started a website that users can upload music too, that others can then download, add too and the reupload! I need some help getting started as I have little content, please visit and add guitars, drums vocals etc, not all the music the site will host will be punk as to limit the content would destroy creativity, but my personal interest is punk and that is the direction I would like to steer it in. <http://www.globalrockers.com>
