**Title :** failure friend

**Lyrics :**

my friend was boring in social life, blank in destiny  
seldom return to home and careless all that happened  
your mom is a slave, who is your dad?  
families dont wanna know  
income not enough for the day heroin dose grow up in your brain

cross in your mind try to rob and other crimes  
get feel high no afraid die, finally he show off

so long story of distrees failure inside yourself  
and nowhere to go to change your way

in action several time he make it seem like perfect  
exactly at no good day you have a serious problem with the cops

the gun and blood welcome to the icu  
taste of pain this is bad but you must do the jail

2 years shut in the jail you hopeless again & again  
quit the school & quit the band get new life & get new friend
