Title : bad holiday

Lyrics :

I wanna relax to waste time today, after a lot of activity
How use to be for enjoy my weekend, cause there are no place to go
I gotta holiday but the object was broken just because human dirty hand
Animals and plants have been disappear
The ecosystem was not control

Cutting down forest and let it burning too only for big success for one
Wild woodcutter, say it for subsistence you know this is suck answer
Now people loosing everything, house, nice job, and family

Where I have to go and I am looking for
Paradise on earth right now
I must go to find holiday, permanent holiday
Not such bad holiday
