Title : Payback Day

Lyrics :

He was just a little boy
In his heart there was no joy
And the sun did never shine
In his poor, disgusting life

All the children there in school
Thought of him as biggest fool
And that didn't do him well
So he wished them all to hell

But he kept hard, cause he knew
His day will surely come
Always waiting for that day
That he will make them pay

Ref.:

He will take his fathers gun
Load it, and get it on
He will blow them all away
On payback day
On pay back day

Somewhere in sunny June
On a Tuesday afternoon
At half past two
His rage is breaking through

He's got no fears
Cause he planed for years
Already knew what it feels like
Cause he learned at counter strike

So today's the day
They all have to pay
Ain't no mercy in his eyes
They'll all have to die

Ref.:

So he took his fathers gun
Load it up and got it on
And he blew them all away
It's payback day
It's pay back day

Bridge

Heavy and fast part

Ref.:

So he took his fathers gun
Load it up, and get it on
And he blew them all away
(and he blew himself away)
on payback day
itâ€™s pay back day
