Title : This Life

Lyrics :

I wake up
got nothing to do
I have
this longing for you
I grab the phone
My parents start to moan
I can't keep dreaming

Cause this life is really getting
me down
It makes me wana
wana frown
I want it to be
you and me

I sneak out
i know thats not allowed
Without you
life's a massive cloud
All rain
and no sunshine
I need some meaning

Cause this life is really getting
me down
It makes me wana
wana frown
I want it to be
you and me

So I come for you
Never let you go
Run a thousand miles just to be with you

Cause this life is really getting
me down
It makes me wana
wana frown
I want it to be
you and me

Cause this life is really getting
me down
It makes me wana
wana frown
I want it to be
you and me
