Title : The scared America

Lyrics :

Verse one

We all got problems
but our governments by far
Worst options
Worst choices
leave our country scared
America scared

chorus

we wanna little solace
we wanna helping hand
but they're just out there to control us
an' don't care if we fall or stand

verse

don't worry they say
well just start another war
as the mind controlled legions
drop dead score by score
score after score

chorus

verse 3

we need a little solace
we need a helping hand
they're just out there to control us don't cast if we fall or stand

- Eri
