Title : school

Lyrics :

Here we go to school like go to hell for learn your bullshit propaganda
Damn! No knowledge I trust at high school
3 year felt so very fuckinâ€™ long cause all I did it are useless
Now I follow my friend to say hate school

What are you talking about yesterday all isnâ€™t same like condition today

So I better play it with my friend than going to this boring one
cause no good experience that I got
3 year felt so very fuckinâ€™ long cause all I did it are useless
Now I know why people calling that school sucks!

The knowledge not just from school I can learn, every where I can get if really want

Finally I know you fooling me what the hell future all you said just make me sick
Kiss my ass now I tell you jackass please donâ€™t influence another person
They will become like me
