**Title :** Far Away

**Lyrics :**

Take a step; take a chance with me tonight  
I will be here for you all the time  
Take a breath; let me in every breath you take  
And everyday will be alright

I'll take you far away from here  
Where the star light will shine on us tonight  
I'll write a song..  
For about how much you mean to me

I am so transfixed  
Stars shine up there so bright  
And we'll show them how it's like  
As soon as I'm where you are tonight

I'll take you far away from here  
Where the star light will shine on us tonight  
I'll write a song..  
For about how much you mean to me

Take with me those eyes I break  
Into our place where we can be safe  
Shine your light on the world outside  
Together for the rest of our lives

I'll take you far away from here  
Where the star light will shine on us tonight  
I'll write a song..  
For about how much you mean to me
