**Title :** Across the Room (Late Night Ride)

**Lyrics :**

Looking out across the room  
Our eyes meet finally  
Later in the parking lot  
You stood right next to me  
I could not say a single word  
To you about my thoughts  
Everything that I had known  
Right then I had forgot

I cannot think straight anymore  
Its all because of you  
Iâ€™m falling more and more in love  
More than you ever knew

Later when the schoolday ends  
You pass so quietly  
You walk so quickly through the hall  
And out into the street  
You said how about Friday night  
My words I had forgotten  
But this will be a special day  
Iâ€™ll look back on so often
