Title : Heroes (Late Night Ride)

Lyrics :

Whatever Happened
So many years ago
Tell me what happened
Where did you go?
What does it mean
If your really gone for good
Because you had the opportunity
Doesn't mean you should

Where did you go
Because you were heroes to me
And I hope your on the path
To big and better things
I just wanna know
What did it really take
To make you run, just run away from home

I remember seeing you
So many years ago
When I met you at the club
Before you went to play a show
Now your gonna leave
And you'll never be replaced
So just in case I never make it
Thanks to you, I'll get a taste

(Chorus)

(Solo)

(Chorus)
