Title : my world is nothing with out u

Lyrics :

this world i am is gone and hopeless
my life is shatter into pieces since u been gone
my dreams have faded away
the only time i fell is when i'm in pain i see ur face
when i bleed
and the taste of my blood brings back memories of u
i just want to hold feel ur heart against
mine
this world is sso fucked up and full of pain just come back to me
just come back to me

this song i wrote for u is to show u what i feel hopefully these lyrics well bring pain so u will feel my in ur
heart once again

just come back to me
this world is nuthing wihtout u
justcome back to me

just come back to me
