Title : Deuce

Lyrics :

liquid poison, fake i.d
thank god for talking care of me
honestly, i lost track just recently
now i want my money back for all the
braincells that i lack,
you'll see, its me, no guilt no integrity

i believe theres time to kill
so bring me the kegg before i get ill (refill)
lets not waste anymore time
lets finish this kegg while we chill
cant afford one single drop spilled (refill)
what about that twist of lime?

bottoms up for you my friend
this time we'll stay until the end
i dont care, i drink my poison anywhere
some people say dont drink and drive
they wont be here for quite a while
more for us, sorry man but life is though

i believe theres time to kill
so bring me the kegg before i get ill (refill)
lets not waste anymore time
lets finish this kegg while we chill
cant afford one single drop spilled (refill)
what about that twist of lime?

i belive i could drink more
im sorry for my aim
somehow it ends up at the floor
am i the only one to blame?

i believe theres time to kill
so bring me the kegg before i get ill (refill)
lets not waste anymore time
lets finish this kegg while we chill
cant afford one single drop spilled (refill)
what about that twist of lime?
