Title : J J is Tenatively a sexy beast

Lyrics :

My fingers are blue
Soon you will be too
It's a disease, it's a sickness
It's a worn-out old crucifix
I'm an over-used metaphor
I've been used ten million times before
To be or not to be
Let them eat cake
It's a stupid decision I just love to make

Well I need to scream and I have no mouth
I already know what this nightmare is all about
I'll just end up dead again
We'll all just end up dead again

-repeat-
