Title : Shadowed Outline

Lyrics :

You may only be a dream
But I dont give a damn
As long as you will love me forever
I wouldn't care if I was sand

Because you are my shadowed outline
You bring the color back
This may be a dream of mine
But you are the star of the show

Things may not be like they seem
Look between the lines
But if you were a sheet of lined paper
The sun would never shine

Because you are my shadowed outline
You bring the color back
This may be a dream of mine
But you are the star of the show

Things are easy to other people
Me, I'mnot so lucky
But even thought no one gives at all
I promise I will not fall

Because you are my shadowed outline
You bring the color back
This may be a dream of mine
But you are the star of the show

You are my shadowed outline

You are my shadowed outline

You are my shadowed outline

And we are the stars of the show....
