**Lyrics :**

So the soldiers end up over in Iraq  
Set off to follow an endless track  
Seeing starvation, seeing pain  
All these sights should drive a man insane

Bullets Flying...  
People dyingâ€!  
All because of gasoline

Prices risingâ€!  
Children cryingâ€!  
But the media doesn't show pictures obscene.

What's the price you're going to pay?  
Are you going to liveâ€!. or die today?  
Do what your told, not what is right  
And on and on goes an endless fight

Bullets flyingâ€!  
People dyingâ€!  
All because of gasoline

Prices risingâ€!  
Children cryingâ€!  
But the media doesn't show pictures obscene.

So you stand by his grave, and lay down a flower  
All because of the government's power  
You've been doing what your told, not what is right  
Now's the time to stand up and FIGHT!

(Solo)

We've got our wars, we've got our fights.  
We've got a country with no foresight.  
I'm getting sick of this game we play.  
America's going to kill until the end of all days.

Bullets flyingâ€!  
People dyingâ€!

All because of gasoline

Prices risingâ€!

Children cryingâ€!

But the media doesn't show pictures obscene.
