**Title :** just listen

**Lyrics :**

when the noise of the crowd  
gets a little too loud  
for us to hear our voices  
just drift above all the chaos and the noises  
chorus : just listen to the music  
and let the beat carry you away  
just dance till you feel sea sick  
and sing into another day  
listen to the band play  
and let the day pass away  
and when you slip into reality  
don't forget about me
