Title : Rail Of Time

Lyrics :

Rail Of Time

I lay down my hand on the rail of time
I wanna see the future in my mind
To live this life the best that i can
To ask myself what makes me a man

The wheels are spinning fast
Is there an end of the line?
I just get along
Traveling the rail of time

There?s so much in life i have to know
There?s so much in life i have to be
Push the button, It?s the end of the line
Time to stop and leave this life behind

The wheels are spinning fast
Is there an end of the line?
I just get along
Traveling the rail of time
