**Title :** Life Less Frightening

**Lyrics :**

Suffering from something  
We're not sure of  
In a world  
There is no cure for  
These lives we live  
Test negative for happiness  
Flat line, no pulse, but eyes open  
Single file like soldiers on a mission  
If there's no war outside our heads  
Why are we losing?

[Chorus: x2]

I don't ask for much (Life less)  
Truth be told I'd settle (frightening)  
For a life less frightening, (Life less)  
A life less frightening (frightening)

Hang me out to dry  
I'm soaking  
With the sins of knowing  
What's gone wrong  
But doing nothing  
I still run  
Time again I have found myself stuttering  
Foundations pulled out from under me  
This breath is wasted on them all  
Will someone answer me

[Chorus x2]

Is there a God tonight  
Up in the sky  
Or is it empty just like me? (Just like me)  
A place where we can hide  
Out from the night  
Where you are all I see (Where you are all I see)  
So blow a kiss goodbye then close your eyes  
Tell me what you see (Tell me what you see)  
A lifetime spent inside this dream of mine  
Where you are all I see

[Chorus x2]
