Title : Tie Down Your Ghost

Lyrics :

I know that I can?t live without you, it?s so long
And this where I state that you were wrong
And I was right every day here is a fight
And this is everything
And you really want me to stay and I know

Rip down your skin with my fingernails
I can?t live without you and your ghost
Right down your spine I?m with you every night
I can?t live without you and your ghost
Rip down your skin with my fingernails
I can?t live without you and your ghost
Right down your spine I?m with you every night
I can?t live without you and your ghost

And now I know that I hate that your so far away
But I am so glad that you took a chance on this tonight
Because I am afraid that each breath that I take, well it might be my last
Cause I hate tonight and you hate tonight because we hate tonight

Just the idea, that being a fake
is better than being you

rip down your skin with my fingernails
I can?t live without you and your ghost
right down your spine I?m with you every night
I can?t live without you and your ghost
rip down your skin with my fingernails
I can?t live without you and your ghost
right down your spine I?m with you every night
