Title : what i want to do to you

Lyrics :

After ive hit all ten of them I'll start again with the one which i had begun. To make it even more enjoyabel, i add a little mental hurt. I make you drink a glass of my piss to help you swallow my turd. Rats gnaw on your toes By now you dont much mind these rats must be cannibals cos you are of their own kind. with scissors i cut your bely open, entrails all coming out your testicles i use as pincushions undreds of needles in your balls. all you know is excrusiating pain, when finaly your curtain falls. i reach inside your fucking chest and rip out your bloody heart i dig my fingers into it and tear this rotten thing apart. using a chainsaw i dismember you . it cut off your limbs with ease. I cant help but smile at this as i cut off piece by piece. i think ill hire dr. frankenstien to create you. as you were. id gladly pay him all ive got so i could do it to you once more.
