**CUBICLE is now on Sirius Satellite Radio. Check 'em out on PUNK (Channel 29).**

**Punk rock is not dead! CUBICLE unleashes a fist full of fury on Corporate America with their first full-length album entitled "American Business."**

**The most trivial office activities: operating the facsimile, troubleshooting paper jams and changing the cyan ink â€“ these mundane muses fuel CUBICLEâ€™s aggressive punk rock sound. Corporate bankruptcies, reports of cookinâ€™ the books and multi-million dollar severance packages just fuel the fire.**

**Written, produced and self-released by the band (who happen to be fellow co-workers), the album allows listeners to unwind after an invigorating and productive day at the office. Harder, faster, louder! Let it all out with CUBICLE!**
