**An amazing new five piece package wrapped tightly with former members of Ballistics (CA), Our Time Down Here (NJ), Battery Legion (OR), 5 Cent Refund (OR), and KegStand (WY) automatically draws intrigue, well let me tell you, having the pleasure of seeing them live out in Portland Oregon, was amazed after two minutes into their set. It was almost difficult to discern between the pit and the performance. There was a motion in the building that I haven't seen in at least ten years. Let's just say "They seriously bring the mayhem!". On top of that they we're musically flawless. I had the pleasure of speaking with the band after their set and they are serious about what they are doing, having recently signed with an indie label Horns Up Records, say they are spending every moment of time they have on the road and in the studio, so keep an eye on their road schedule and don't miss out on Unfallen Heroes.**
